Montgomery County Sheriff's Office (MCSO) Monthly Reporting Changes Patrol Activity Report

The MCSO has undergone a two year process to move crime activity reporting from a manual data collection method to a computer automated one. The monthly report that the MCSO had published to The Township for many years was compiled using a manual format whereby the deputy who responded to a call or other patrol activity categorized the incident and the cumulative data was then collected into a monthly report. This method worked when the MCSO was a small agency, but as we have grown and technology has become more available, we have moved to an automated process.

The monthly reporting process that the MCSO put into effect with the January 2013 Patrol Activity Report consists of electronic dispatch data collection of all Patrol activity routed through Communications (dispatch). All calls for service, whether they are routed through 911, standard telephone, in-person, or law enforcement self-initiated, are assigned a dispatch nature. The natures are more comprehensive than the categories contained in the previous monthly report. The natures are not necessarily crime incidents, such as Abandoned Vehicle, Civil Service, etc., but they may be in incidents such as Burglary, Sexual Assault, and Theft. The natures are general classifications of Patrol activities and calls for service that portray a better picture of the categorized work in which MCSO Patrol Deputies engage on a routine basis.

As for reading the monthly report, the natures are classified initially by the dispatcher and then sent to the Deputy in the field. The Deputy may find that upon arrival at the scene of the call that the nature is not correctly reflective of the incident in which he is charged to provide service. An example would be that an "Alarm" is dispatched to a deputy and upon arrival he finds that the door has been kicked in to the residence and property has been stolen. The nature would be changed, with the historical data being preserved, from "Alarm" to "Burglary" with a case number and disposition of "Report." A digit would be added only to the "Burglary" column on the monthly activity report.

There are also natures that have been combined for purposes of simplifying the data. An example would be some natures are dispatched as "in progress" because an emergency response is necessary. This is opposed to the same incident being dispatched as a "past" incident whereby no emergency response is necessary. A "Burglary" nature can be dispatched as either; however, this sub-category makes no difference in the overall statistical reporting of this nature and the sub-fields have been combined into one comprehensive nature titled "Burglary." You will find these combined fields as highlighted in the monthly report to denote them as having sub-categories.

The Records Management System (RMS) houses crime data that requires the generation of an offense report. I am currently working with a vendor to create a mapping system that will make this crime data available for a public view function. The web-based software uses MCSO RMS data to create basic citizen reports using predefined crime categories with public mapping. The software also has a law enforcement only view for crime analysis. This project has been in process for about a year and we are scheduled to sign a contract with the vendor at the end of this month and begin implementation at that time. A final reporting method of note is the officer generated data found in the daily activity reporting (DAR) function on the deputy's mobile data computer (MDC). This is a manual data collection method generated by the deputies in the field and I refer to this method of reporting as "soft number" due to the vulnerability to incorrect human error data. This data is used by supervisors for management accountability and contains information such as mileage driven, citations written, racial profiling data, and a self-assessment of reports written. This report is automatically emailed daily to the deputy's supervisor and is used as a quick reference related to deputy productivity. Historical reports are run from this data, but it should be expected that errors will be present.

Information provided by Captain Rand Henderson who oversees all of the reporting processes.

2012	5,840
2013	7,900

Alpha & Omega Mounted Patrol

- In January Alpha & Omega received a compliment via Facebook. Customer posted, "We wanted to thank Mounted Larry Hamlett and Blaze for coming to our aid today when our 4 year-old fell face first in the Toys R Us parking lot. Mounted Hamlett gave my son a card of himself and Blaze, which was a real lifesaver."
 - International Visitors: Argentina, Australia, Brazil, Canada, China, Columbia, Denmark, Egypt, England, France, Germany, Israel, Japan, Mexico, Scotland, Spain, Sweden, Tokyo and Venezuela
 - Out-of-State Visitors: Alaska, Arizona, California, Colorado, Florida, Georgia, Hawaii, Illinois, Iowa, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Missouri, New England, New Mexico, New York, North Carolina, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Utah, Vermont, Virginia, Washington and Wisconsin
